Subject: RE: Draft appendix to Programmatic Agreement for Tribal Consultation on Proposed EPA action (injection well permits required for insitu uranium application)

Good morning, Jim, one of my duties is to help support tribal consultation, so if you need help in setting up meetings or any other support in this consultation, please do not hesitate to let me know. Thank you.

Subject: Draft appendix to Programmatic Agreement for Tribal Consultation on Proposed EPA action (injection well permits required for insitu uranium application)

Hello Tribal Program Managers,

I am providing assistance to UIC program on the tribal consultation process for the Dewey-Burdock well applications in South Dakota. I need your assistance with our process and request that you review the enclosed document serving as an appendix to the proposed programmatic agreement from Nuclear Regulatory Commission, the licensing authority, who also has a federal action for this undertaking.

In your mission to provide leadership in protecting public health and the environment within Indian country while respecting the sovereignty of each tribe and recognizing our Federal trust responsibilities, all of you may be in the best position to help me do a good job with this process. I suggest that we meet in a few weeks to discuss your comments or perspectives on this document and on our consultation process. Look for an invitation soon.

James Hanley
